5. Further to the statement made in the declaration filed in the parent application (U.S. application serial no. 08/378,617) on July 30, 1997, and in the instant application on June 25, 1998, the porcine I-1,3 galactosyltransferase cDNA clone that was used to ascertain the correct nucleotide sequence was the same one used to obtain the original nucleotide sequence. Moreover, this cDNA clone was in my continued possession from the time of obtaining the original nucleotide sequence to the time of ascertaining the correct sequence;

6. I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
